

ORAK Petrol R5 is an integrated software management system for petrol stations, gas stations, oil bases, points of sale of liquid fuel - retail and wholesale. The product is a part of the Software Business Platform R5.

The system is designed to manage chains of sites having large infrastructure, and their side activities such as stores, cafes, car washes, etc. The software product supports communication protocols with a wide range of electronic columns heads and level measuring devices.

ORAK Petrol R5 complies with all requirements of the Bulgarian legislation on liquid fuels trade.
